

nordlux®

Nordlux is Danish-design luminaires for the people since 1977. Lighting solutions for indoor, outdoor and smart home applications.

Scandinavian design is a prominent design movement that emerged in the early 20th century in Nordic countries of Sweden, Denmark, Finland, Norway and Iceland. Beloved for its functionality, simplicity, craftsmanship and connection to the natural organic environment, Nordic design has been influencing architects and interior designers for almost a century. Offering plenty of room for self-expression, the Nordic style also suits modern living spaces that require function and adaptable products that stand the test of time. Nordlux pays homage to the legendary pioneers of Scandinavian design while offering a fresh twist on the iconic Nordic style. Our products offer an easy way to introduce exclusivity and sophistication in your living space while effortlessly evoking a sense of coziness and calmness.

15-Year Guarantee

Nordlux offers a 15-year guarantee on all outdoor lamps in galvanised steel, copper and brass. This guarantee applies to extensive corrosion in the form of holes in the metal caused by rust. The guarantee is subject to presentation of receipt. There is no guarantee on components which have been affected by wear and tear or mistreatment of the lights.

Designed for Seaside

Nature is beautiful - but it can also be rough. Crashing waves, wind, salt and especially sand can be a challenge for your home and your outdoor lighting. For Danish Nordlux, this beautiful but harsh nature and weather is part of everyday life. We therefore strive to produce lamps created from natural materials which are also resistant and durable, year after year, in relentless weather and nature.

Galvanised Steel

You will also find galvanised steel in the series of durable materials, which is a speciality of Nordlux's and one of our most preferred materials for outdoor products. Therefore, our range of outdoor lamps is broadest in this area. We appreciate the beautiful appearance the product takes on and the material's great potential, which allows us to offer better and more durable lamps to as many people as possible - in coastal areas and in cities. The quality of the galvanising is a great priority at Nordlux and therefore it is worth knowing what is means, when a lamp is galvanised.

What is galvanising?

Galvanising is a chemical process, where acid cleaned steel is dipped into 460°C melted zinc. When the steel is dipped into the melted zinc, a chemical reaction between the metals occur, where the zinc in a way rusts and form a surface alloy that protects the steel against outside elements that normally would cause rust. This process makes Nordlux's galvanised products durable and a natural product as it is created of natural materials and metals.

Brass, Copper & Nickel

Brass, copper and nickel come together to create a beautiful symphony of products which can withstand the harsh weather and simultaneously age gracefully over time, without deteriorating.

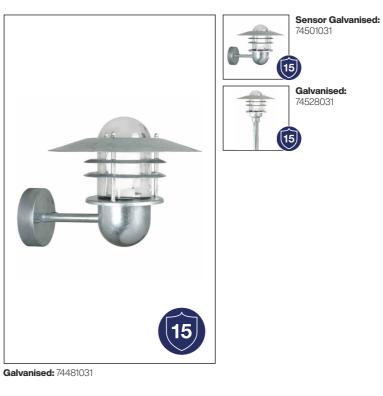

Designed for Seaside

Our seaside collection is made from durable and natural materials which mature beautifully.
